UP TO THE MINUTE DATA ON IRC RESISTORS

Every well-posted Serviceman will want his own personal copy of this new IRC Service Catalog. Profusely illustrated with useful charts, diagrams, tables and product pictures, it contains the kind of material a busy man likes to have right at his fingertips.

Among the interesting features in this catalog you'll find the complete story on the new smaller size BTS ($\frac{1}{2}$ watt) and BTA (1 watt) resistors, as well as useful data on the entire BT and BW resistor lines. Now in RMA Preferred Number Ranges as standard Dis-

tributors' stock, these quality resistors are quoted at new low prices.

Also included are pertinent facts on IRC's "Century Line" of volume controls . . . 100 controls that will solve over 90% of your problems in this category. But these are only the highlights of this helpful new catalog. You'll want to see and read it all.

Make sure that you get your copy by stopping in at your nearest IRC Distributor or, if more convenient, drop a card to Dept. RA

International Resistance Co.
